

HoloPro™ on TV!

HoloPro™ has appeared live on television. After the public TV channel ZDF visited us at our premises in Bergisch Gladbach last week, we are proud to be able to show you the following report:

<http://www.holopro.com/holoprofilm.html>

If this video should be helpful for your presentation, we will shortly be able to send you a DVD. Please send us a mail to a.leben@gb-pronova.de or call us on +49 (0) 22 04 2 04-3 01.

Exponatec 2007 - Epilogue

"Live the magic of interactive control" – this was the motto of our invitation, and we are certain we didn't promise too much. The positive feedback from our fair exhibits was incredible. Here is a small overview of the exhibition we showed.

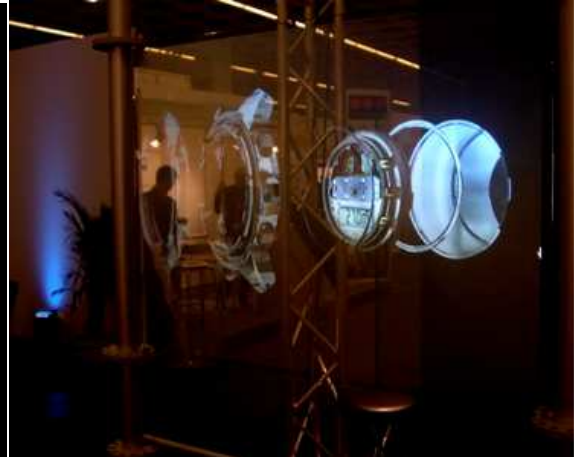

Pronova fair stand with the latest generation of interactive HoloPro™ media displays.

If it was not possible to visit us at the Exponatec in Cologne and you have questions about it, we would be glad to advise you.

Deutsches Museum in Munich.

HoloPro™ interactive in 50" with a current application from the
Gesture control: HoloPro™ with beMerlin technology

You can also find comprehensive information and application examples on the whole range of HoloPro™ products on our website: www.holopro.com
