

	HoloPro™	ProFess	ProLite
Sizes	up to 2.0 x 1.5 m (100“)	up to 2.5 x 6.0 m	up to 2.68 x 2.02m (130“)
Colour	transparent	grey	light grey
Material	glass, Makrolon® (plastic), foil (up to 67“)	glass	acrylic (PMMA/PVC)
Mechanical Stability	self-supporting, stiff	self-supporting, stiff	supported by a frame, flexible
Weight per m²	30 kg	30 kg	5.3 kg
Rear Projection / Front Projection	transparent for rear projection, Mirror screen for front projection	rear projection	rear projection
Projection Angle and Distance	36.4°, fix distance (depending on the size of the screen)	arbitrary	arbitrary
Gain	3.8	1.3	1.1
Visibility Angle / Half Gain	±45° / ±35°	180° / ±40°	180° / ±40°
Hot Spot, Moirée and the like	no	no	no
Anti-Reflective	yes (with glass)	yes (up to 1.7 x 3.3 m)	yes
Special Features	on holographic basis, independent on ambient light, transparent, non-flammable	can be used as whiteboard, washable, non-flammable	inexpensive, easy to process and to clean, flexible
Fields of Application	shopping windows, trade fairs, foyers, outdoor-projection	public buildings, conference rooms	rear projection boxes, media walls
